# SURPLUS JUNE AND DORMANT BUDS.

We have a few thousand Dormant and June Buds in surplus, which we offer for either Fall or Spring delivery.

They are in about the quantities named, but as they have not been dug, we will only sell subject to the final count. We can say, however, that our stand is very fine, and having made what we consider ample deductions, we believe that most of the varieties will hold out the numbers given.

TERMS—Fall delivery, cash at time of shipment. Spring delivery, 20 per cent. with order; balance at time of shipment.

## 10,000 JUNE BUDS--*Peach on Peach.*

| | Per 10 | Per 100 | Per 1000 |
|---|---|---|---|
| 1 to 2 feet | $ 50 | $3 00 | $25 00 |

3000 Wild Goose, 700 Miner, 800 De Soto
600 Weaver, 800 Simoni, 500 Kelsey
200 Free Damson.

# June Buds for 1890.

We again desire to call the attention of the trade to the special advantages offered by June Budding in the introduction of new varieties.

The samples of June Budded peach exhibited by us at the Chicago Conventiom were taken from the rows grown for one of our customers, and showed only the average of sizes as obtained by us, under this system. Where orders are received in time and trees or buds reach us in the proper season, we can make nearly all Peach on Peach run 3 feet and up, and a good percentage 5 to 6 feet, and all shapely and well branched. Where stock for mailing is desired, we can get nearly all to run from 12 to 20 inches, but to obtain such control over sizes we must have orders in time and buds as we want them.

Think of the advantages in time gained in getting new and rare varieties on the market. We plant the seed this winter, bud in June, and in the fall have trees 5 to 6 feet, 4 to 5 feet, 3 to 4 feet, or smaller, just as you desire, and all smooth, thrifty, nice, clean stock, and when budded early enough they ripen up buds in time to dormant bud for the following season, enabling the introducer to put his varieties on the market in any quantity desired the second year. Our climate and soil are exactly suited to this class of work, and our experience in this line enables us to offer a graded list running to six feet, which we believe has never been done by any other parties in June Buds.

It is always best where possible to send on a few trees in fall or early in spring to be set out here from which to cut buds, as we can then be more certain of getting them JUST when we can put them on, and at the same time have them in first class shape, securing a better stand and better growth; but this is not absolutely necessary if our directions for shipping buds are carefully followed. The main point in getting them to any desired size is to have the buds fresh and in time.

PRICES—All to be taken as they run in the rows.

| | | | |
|---|---|---|---|
| Less 1½ feet | @ $25.00 per M. | 1½ to 2 feet | @ $30.00 per M. |
| 2 to 2½ feet | @ 35.00 per M. | 2½ to 3 feet | @ 40.00 per M. |
| 3 to 4 feet | @ 45.00 per M. | 4 to 5 feet | @ 50.00 per M. |
| 5 feet up | @ 60.00 per M. | | |

TERMS—20 per cent. of order June 1st, 1890. Balance at time for shipment.

In ordering, state whether you desire trees to average over or under 3 to 4 feet. Varieties may be sent either under name or number.
